

The reasons why school boards should and shouldn't add extra hours

The school board of your district is considering making the school day longer and make a argument about how they should or shouldn't do that.....

No the school board should not make school an hour longer. Why? Because students wouldn't be able to have free time at home, and say school ends at 3:00pm and there making school hours an hour longer and it will be about 4:00pm, it will be dark outside and student wouldn't to be able to go outside. So that's why the school board shouldn't add an extra hour to schools.

The reason why they should add an extra hour to schools is because it helps get a better education. If student stayed an extra hour at school they could get all there missing work caught up. The student will be able to learn more things and get an extra hour of education. The teachers will probably get paid more the staff will get to stay longer a grade papers. And that's why they should add an extra hour to the school time.

Organization/Purpose – 2

- Not an essay, just an attempt answer the prompt weakening the organization. The first sentence is just a restatement of the prompt. The essay starts with “No the school board should not...”
- The conclusion is one sentence “And that's why they should add an extra hour...”
- The first paragraph addresses the con the second addresses the pro without any further addressing a purposeful essay.

Evidence/Elaboration – 2

- Attempt at style “Why?”
- Some examples of elaboration “it will be dark outside” “they could get all there missing work caught up.”

Conventions – 1

- Variety of errors showing partial command—commas, spelling, run-on sentences
